

IZAMANYA - Rock with strong character

Starting with a vision, punched up with an endless amount of passion and clear aims - this is how **IZAMANYA** came about.

The striking guitar riffs and expressively voice of the lead singer lend the debut album **SECOND LIFE** its distinct character.

IZAMANYA - a band that rocks in its own unique way. Together they were able to create an authentically deep album. The songs are packed with emotional/sentimental feelings. There are no compulsively devised song structures. **IZAMANYA** knows where its power is.

The opener, **WARRIOR OF THE HEART**, reflects the profundity of the band. "What is it worth fighting for in life? You can only find out by walking the path and never giving up, despite the wind," says **Iza Loosli**.

The song describes how important it is to remain true to yourself and to live as you are and feel. With their texts and themes, **IZAMANYA** possibly express other taboos, but this is precisely the fuel behind their drive.

Many Maurer has been in the Swiss music scene for many years. He is a former member of the band **KROKUS**, and with its various projects, such as **AIN'T DEAD YET**, he has acquired experience, not only as a musician, but as producer and songwriter.

Iza Loosli has already proven her musical qualities as lead singer and songwriter in the bands **SWEET NOVEMBER** and **BLUESAHOLICS**.

Iza and Many felt connected from the very beginning, which is a requirement in order to set-up and achieve aims. The ideas and values of both songwriters merged and set, together with **Peter Haas** (drums), the **IZAMANYA** sound with a totally personal stamp.

"After the first vocal sessions, I was and am still very impressed with Iza's personality as well as her voice," says Maurer.

"I have always wanted to combine Hard Rock with tangible statements we have succeeded in doing this with our sound," says Iza.

SECOND LIFE had a totally successful debut, which has made **IZAMANYA** a solid part of the rock jungle.

IZAMANYA - funky food for the rocking ears
IZAMANYA presents its songs in an acoustical version on its "**Second Life**" promotion tour.

"It was important from the very beginning that our songs are also functional in their simplest form."

A multi-faceted voice and an acoustic guitar create a unique atmosphere.

This reflects the musical ambitions of the two songwriters. "What and how much does it take to make a big impact?"

SECOND LIFE album release: 14th October 2017
